

6 Hr Continuing Education for Chiropractic X-ray Technicians

This 6 hour course fulfills the requirements of the Washington State Quality Assurance Commission. The class will discuss problems that are unique to radiography within a Chiropractic office. The emphasis will be on spinal radiography. We'll talk about how to minimize distortion, when are spot views useful, how can we use tube tilt to match the patient's anatomy, x-raying patients with limited range of motion and other challenges. Doctors are welcome to attend for CE hours.
